PROFESSIONAL SUMMARY

Information Technology Engineer and Full-Stack Developer with a Master's Degree in Web User Interface Design and Development. Experienced in transactional and iGaming platforms using Angular, Node.js, TypeScript, and MongoDB. I complement my profile with knowledge of Java, Spring Boot, and PostgreSQL.

PROFESSIONAL EXPERIENCE

ZGames Technology

July 2023 - Present

Full-Stack Developer | On-site

- I integrate external casino and sportsbook providers and participate in validating financial workflows before certification and production deployment.
- I develop interfaces for portals serving between 1,000 and 2,000 active users per client, along with backend services for managing users, reports, bets, and transactions.
- I reduced frontend module development time by 75% through reusable components and resources.
- I reduced inline styles by 90% by implementing design tokens.

Tecnored

January 2024 - Present

Freelance Full-Stack Developer | Remote

- I implemented a Python ETL process to automatically synchronize inventory from Microsoft SQL Server to MySQL without disrupting the legacy system's operations.
- I develop and maintain the e-commerce platform and its admin panel using PHP, JavaScript, and GSAP.
- I created a bulk import module using the Google Sheets API to update products, prices, and promotions.

Empresa Pública Aguas de Manta

May 2023 - June 2023

Web Development Intern | On-site

- I implemented authentication using OpenID Connect to manage user access.
- I integrated interactive maps with Mapbox to add geographic information to the application.

EDUCATION

Master's Degree in Web User Interface Design and Development

2026

Universidad Internacional de La Rioja | Spain, Remote

Bachelor's Degree in Information Technology Engineering

2024

Universidad Laica Eloy Alfaro de Manabí | Ecuador, On-site
